## **Item 1.01 Entry into a Material Definitive Agreement.**

### *New Term Loan Agreement*

On September 11, 2019 (the “Closing Date”), YRC Worldwide Inc. (the “Company”) and certain of its subsidiaries, as guarantors (the “Term Guarantors”), amended and restated their existing credit facilities under that certain Credit Agreement, dated as of February 13, 2014, by and among the Company, the guarantors party thereto from time to time and Credit Suisse AG, Cayman Islands Branch, as Administrative Agent and Collateral Agent (as previously amended, supplemented or modified, the “Prior Credit Agreement”) with their entry into that certain Credit Agreement (the “New Term Loan Agreement”) with the various lenders party thereto, and Cortland Products Corp., as administrative agent and collateral agent (“Term Agent”). The obligations of the Company under the New Term Loan Agreement are unconditionally guaranteed by the Term Guarantors.

Material terms of the New Term Loan Agreement include, among other things:

- a \$600 million term loan borrowed in a single drawing on the Closing Date (the “Term Loan”), bearing interest at LIBOR (subject to a floor of 1.00%) plus a margin of 7.50% per annum, payable at least quarterly in cash, subject to a 1.00% margin step down in the event the Company achieves greater than \$400 million in last-twelve-month Adjusted EBITDA (defined in the New Term Loan Agreement as “Consolidated EBITDA”);
- a maturity date of June 30, 2024, with a single payment at maturity of the outstanding balance;
- obligations under the New Term Loan Agreement are secured by a perfected first priority security interest in (subject to permitted liens) substantially all assets of the Company and the Term Guarantors, including but not limited to all of the Company’s wholly owned terminals, trucks and trailers, subject to certain exceptions;
- a requirement that the Company must maintain a minimum last-twelve-month Adjusted EBITDA of \$200 million, measured quarterly;
- the Term Loan is subject to repayment with (i) 100% of the net cash proceeds from the disposition of assets outside the ordinary course of business and casualty events (subject to an exception for the first \$40 million in trucking terminal property sales), (ii) 33% of the net cash proceeds of issuances, offerings or placements of junior lien debt or subordinated debt obligations, (iii) a percentage of excess cash flow as of the end of the Company’s fiscal year, such percentage based off of the Total Leverage Ratio (as defined in the New Term Loan Agreement) as of the end of such fiscal year and (iv) 100% (up to a maximum of \$30 million) of net cash proceeds of equity issuances;
- loans under the New Term Loan Agreement may be voluntarily prepaid; provided, that any such prepayment or mandatory prepayment (other than with respect to a prepayment with excess cash flow) will be subject to a 3% premium until the first anniversary of the Closing Date, a 2% premium from the first anniversary until the second anniversary of the Closing Date, a 1% premium from the second anniversary until the third anniversary of the Closing Date, and 0% premium thereafter; and
- pari passu first priority additional debt is not permitted, however, (i) up to \$200 million of debt secured by a second priority security interest is permitted and (ii) the Company may incur indebtedness in an amount sufficient to refinance the New Term Loan Agreement in full.

The New Term Loan Agreement also contains certain customary events of default (subject to customary exceptions and qualifications), including but not limited to the failure to make payments due under the New Term Loan Agreement, breach of and failure to cure the breach of certain covenants, the commencement of certain insolvency proceedings, liquidations or dissolutions, and a cross-default to certain other indebtedness. During the continuance of an event of default, at the election of the majority of lenders (and automatically during certain events of default), the interest rate on overdue loans and interest will be increased by 2.00% per annum above the rate otherwise applicable and payable on written demand. Upon the occurrence of certain events of default, the Term Agent may, among other things, declare the obligations outstanding under the New Term Loan Agreement due and payable immediately.

#### *Fifth Amendment to the Loan and Security Agreement*

On September 11, 2019, the Company and certain of its subsidiaries entered into Amendment No. 5 (the “Fifth Amendment to the LSA”) to the Loan and Security Agreement, which amends the Loan and Security Agreement, dated as of February 13, 2014 (as previously amended, supplemented or modified), by and among the Company, certain of the Company’s subsidiaries party thereto, the lenders party thereto and Citizens Business Capital, a division of Citizens Asset Finance, Inc., a subsidiary of Citizens Bank, N.A., as agent.

The Fifth Amendment to the LSA, among other things, consents to the refinancing and provides conforming changes to the description of collateral set forth in the New Term Loan Agreement.

#### **Item 2.03 Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant.**

The disclosure set forth above in Item 1.01 is incorporated by reference herein.

#### **Item 7.01 Regulation FD Disclosure.**

Attached hereto as Exhibit 99.2 and incorporated by reference is a presentation setting forth certain financial information giving pro forma effect to changes in the definition of Adjusted EBITDA for the New Term Loan Agreement from the Prior Credit Agreement. Pursuant to the New Term Loan Agreement, Adjusted EBITDA limits certain adjustments in aggregate to 10% of the last-twelve-month consolidated Adjusted EBITDA, prior to the inclusion of amounts subject to the 10% threshold, for each period ending. Such adjustments include, but are not limited to, restructuring charges, integration costs, severance and non-recurring charges.

The press release and presentation attached hereto contain non-GAAP measures. Reference to these non-GAAP measures should not be considered as a substitute for results that are presented in a manner consistent with GAAP. We believe our presentation of EBITDA and Adjusted EBITDA is useful to investors and other users as these measures represent key supplemental information our management uses to compare and evaluate our core underlying business results both on a consolidated basis and across our business segments, particularly in light of our leverage position and the capital-intensive nature of our business. Further, EBITDA is a measure that is commonly used by other companies in our industry and provides a comparison for investors to evaluate the performance of the companies in the industry. Additionally, Adjusted EBITDA helps investors to understand how the company is tracking against our financial covenant in our New Term Loan Agreement.

The presentation is being furnished pursuant to Item 7.01, and the information contained therein shall not be deemed “filed” for the purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), or otherwise subject to the liabilities of that section, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such filing.

#### **Item 8.01 Other Items.**

The Company issued a press release on September 11, 2019 announcing its entry into the New Term Loan Agreement. A copy of the press release is filed hereto as Exhibit 99.1 and incorporated by reference herein.

Vice President, General Counsel and Secretary

Date: September 11, 2019

## YRC Worldwide Announces New Term Loan Agreement

### New Credit Terms Provide Increased Liquidity and Operational Runway

OVERLAND PARK, Kan., September 11, 2019 — YRC Worldwide Inc. (NASDAQ: YRCW) announced today it has completed a refinancing of its term loan obligations and entered into a term loan agreement (“Term Loan Agreement”) with funds managed by affiliates of Apollo Global Management, LLC (NYSE: APO) acting collectively as the Lead Lender for a \$600 million facility which provides additional liquidity and has a less restrictive financial covenant. This is expected to create operational runway as the Company moves forward with its multi-year strategic initiatives designed to achieve sustained profitability.

“The new Term Loan Agreement provides the Company with increased liquidity through the elimination of annual principal amortization and the ability to reinvest cash proceeds from certain property sales back into the business. To successfully execute the Company’s multi-year strategy, it is essential we have a capital structure in place that provides added liquidity to invest in the initiatives we have planned and better positions the Company to navigate through cyclical economic environments,” said Stephanie Fisher, Chief Financial Officer of YRC Worldwide.

Key provisions of the new Term Loan Agreement as compared to the Company’s prior term loan agreement include:

- Full elimination of the annual principal amortization of 3% (\$18 million in cash savings per year);
- A reduction in the interest rate to LIBOR + 750 basis points from LIBOR + 850 basis points;
- Replacement of the total leverage covenant with a new covenant to maintain a minimum of \$200 million in last-twelve-month Adjusted EBITDA (defined as Consolidated EBITDA in the Term Loan Agreement);
- Ability to reinvest cash proceeds on certain future property sales (first \$40 million over loan term); and
- Maturity of June 2024 from July 2022.

“The execution of this refinancing is an important milestone for YRC Worldwide and a critical next step in our journey. This completes two of the five foundational elements of our multi-year strategic roadmap announced earlier this year. We have accelerated our efforts around these initiatives and securing the new financial structure allows us to move rapidly toward the \$60 to \$80 million in profit expansion we have targeted in 2020,” said Darren Hawkins, Chief Executive Officer of YRC Worldwide.

The strategic roadmap for the Company was designed to achieve sustained profitability. The key components of our multi-year strategic roadmap along with significant progress in each area are:

**Strategic Focus Areas**

Labor contract ratification along with implementation of operational efficiencies

Capital structure improvement

Network optimization

Customer engagement/growth initiatives

Capital investment in equipment and technology

**Significant Progress Achievements in 2019**

- National labor contract ratified in May 2019
- Improving mix of hourly wages with the use of part-time workers
- Recently reached tentative agreement for the Reddaway contract
- New term loan agreement improves financial stability
- Approximately 25 service centers have been identified for consolidation by end of 2019
- Rapid progress being made to identify opportunities and create efficiencies such as the consolidation of the New Penn headquarters' administrative functions
- Jason Bergman named new Chief Customer Officer to lead customer engagement initiatives, including expansion of non-LTL freight services
- Completed the reorganization of our enterprise-wide sales force
- Onboarded nearly 170 new box trucks to further reduce local cartage and short-term rental expense

“I am pleased with the rapid progress we have made in 2019 as critical foundational elements are now in place. Through the remainder of the year, we will be aggressively moving forward with the implementation of our operational flexibilities, the network optimization plan and improving customer engagement, which we believe will lead to improved profitability for the Company,” said Hawkins.

**Updated Presentation of Adjusted EBITDA**

The Company has included an updated presentation of Adjusted EBITDA, as defined by the new Term Loan Agreement for the first and second quarter of 2019 and 2018, the first half of 2019 and 2018, and the twelve months ended June 30, 2019, March 31, 2019, December 31, 2018 and September 30, 2018. Additionally, presentation slides will be available on YRC Worldwide Inc.'s website at [www.yrcw.com](http://www.yrcw.com).

\* \* \* \* \*

**Non-GAAP Financial Measures**

*EBITDA is a non-GAAP measure that reflects the company's earnings before interest, taxes, depreciation, and amortization expense. Adjusted EBITDA is: a non-GAAP measure that reflects EBITDA, and further adjusts for net gains or losses on property disposals, non-cash impairment charges, letter of credit expenses, restructuring charges, transaction costs related to issuances of debt, nonrecurring consulting fees, permitted dispositions and discontinued operations, equity-based compensation expense, union vacation restoration charges, and non-union pension settlement charges, among other items, as defined in our credit facilities. EBITDA and Adjusted EBITDA are used for internal management purposes as a financial measure that reflects the company's core operating performance. In addition, management uses Adjusted EBITDA to measure compliance with the financial covenant in the company's credit facilities and to pay certain management and employee bonus compensation. We believe our presentation of EBITDA and Adjusted EBITDA is useful to investors and other users as these measures represent key supplemental information our management uses to compare and evaluate our core underlying business results both on a consolidated basis and across our business segments, particularly in light of our leverage position and the capital-intensive nature of our business. Further, EBITDA is a measure that is commonly used by other companies in our industry and provides a comparison for investors to evaluate the performance of the companies in the industry. Additionally, Adjusted EBITDA helps investors to understand how the company is tracking against our financial covenant in our term loan credit agreement. However, these financial measures should not be construed as better measurements than net income, as defined by generally accepted accounting principles (GAAP).*

EBITDA and Adjusted EBITDA have the following limitations:

- EBITDA does not reflect the interest expense or the cash requirements necessary to service interest or fund principal payments on our outstanding debt;
- Adjusted EBITDA does not reflect the interest expense or the cash requirements necessary to service interest or fund principal payments on our outstanding debt, letter of credit expenses, restructuring charges, transaction costs related to debt, union vacation restoration charges, or nonrecurring consulting fees, among other items;
- Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will have to be replaced in the future and EBITDA and Adjusted EBITDA do not reflect any cash requirements for such replacements;
- Equity-based compensation is an element of our long-term incentive compensation program, although Adjusted EBITDA excludes employee equity-based compensation expense when presenting our ongoing operating performance for a particular period;
- Other companies in our industry may calculate Adjusted EBITDA differently than we do, limiting its usefulness as a comparative measure.

Because of these limitations, our non-GAAP measures should not be considered a substitute for performance measures calculated in accordance with GAAP. We compensate for these limitations by relying primarily on our GAAP results and using our non-GAAP measures as secondary measures. The company has provided reconciliations of its non-GAAP measures to GAAP net income (loss) and operating income (loss) within the supplemental financial information in this release.

#### **Forward-Looking Statements**

This news release contains forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act. Words such as “will,” “expect,” “intend,” “anticipate,” “believe,” “could,” “would,” “should,” “may,” “project,” “forecast,” “propose,” “plan,” “designed,” “enable,” and similar expressions which speak only as of the date the statement was made are intended to identify forward-looking statements. Forward-looking statements are inherently uncertain, are based upon current beliefs, assumptions and expectations of Company management and current market conditions, and are subject to significant business, economic, competitive, regulatory and other risks, uncertainties and contingencies, known and unknown, many of which are beyond our control. Our future financial condition and results could differ materially from those predicted in such forward-looking statements because of a number of factors, including (without limitation) our ability to implement our multi-year strategy, including (without limitation) the sales of service centers, the achievement of identified operational efficiencies in our network, the implementation of operational flexibilities as provided by the new national labor contract, and improvements in our customer engagement initiatives; our ability to achieve the expected savings, improved profitability and profit expansion described in this news release; our achievement of increased liquidity our desired results in operations and business, as well as our ability to satisfy the financial covenant under the Term Loan Agreement, particularly in a weaker economic environment; and other risks and contingencies, including (without limitation) the risk factors that are included in our reports filed with the SEC, including those described under “Risk Factors” in our annual report on Form 10-K and quarterly reports on Form 10-Q.

---

## About YRC Worldwide

YRC Worldwide Inc., headquartered in Overland Park, Kan., is the holding company for a portfolio of less-than-truckload (LTL) companies including Holland, New Penn, Reddaway, and YRC Freight, as well as the logistics company HENRY Logistics. Collectively, YRC Worldwide companies have one of the largest, most comprehensive logistics and LTL networks in North America with local, regional, national and international capabilities. Through their teams of experienced service professionals, YRC Worldwide companies offer industry-leading expertise in flexible supply chain solutions, ensuring customers can ship industrial, commercial and retail goods with confidence.
