## Disclaimer

The information in this presentation is summary in nature and may not contain all information that is important to you. The Recipient acknowledges and agrees that (i) no representation or warranty regarding the material contained in this presentation is made by YRC Worldwide Inc. (the "Company" or "we") or any of its affiliates and (ii) that the Company and its affiliates have no obligation to update or supplement this presentation or otherwise provide additional information. This presentation is for discussion and reference purposes only and does not constitute an offer to sell or the solicitation of an offer to buy any securities or other property.

This presentation contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1934. Forward-looking statements relate to future events or future performance of the Company and include statements about the Company's expectations or forecasts for future periods and events. Specific forward-looking statements can be identified by the fact that they do not relate strictly to historical or current facts and include, without limitation, words such as "may," "will," "should," "expect," "plan," "anticipate," "believe," "estimate," "predict," "potential" or "continue," the negative of such terms or other comparable terminology. We disclaim any obligation to update those statements, except as applicable law may require us to do so, and we caution you not to rely unduly on them. We have based those forward-looking statements on our current expectations and assumptions about future events, and while our management considers those expectations and assumptions to be reasonable, they are inherently subject to significant business, economic, competitive, regulatory and other risks, contingencies and uncertainties, most of which are difficult to predict and many of which are beyond our control. Therefore, actual results may differ materially and adversely from those expressed in any forward-looking statements. Factors that might cause or contribute to such differences include, but are not limited to, those we discuss in the "Risk Factors" section of our Annual Report on Form 10-K and in other reports we file with the Securities and Exchange Commission.

This presentation includes the presentation of Adjusted EBITDA, a non-GAAP financial measure. Adjusted EBITDA is not a measure of financial performance in accordance with generally accepted accounting principles and may exclude items that are significant in understanding and assessing our financial results. Therefore, this measure should not be considered in isolation or as an alternative to net income from operations, cash flows from operations, earnings per fully-diluted share or other measures of profitability, liquidity or performance under generally accepted accounting principles. You should be aware that this presentation of Adjusted EBITDA may not be comparable to similarly-titled measures used by other companies. A reconciliation of this measure to the most comparable measures presented in accordance with generally accepted accounting principles has been included in this presentation.

## Introduction

YRC Worldwide is one of the largest less-than-truckload (LTL) carriers in North America and generates approximately \$5B of revenue by providing services under a portfolio of four subsidiaries

Approximately 24% of the public carrier market share by tonnage

Providing the broadest coverage and more service capability throughout North America than any competitor

# YRC Freight and Regional Transportation

## YRC Freight

- Formed by the combination of Yellow Transportation and Roadway Express
- Branded as YRC Freight in early 2012
- Focused on longer-haul LTL shipping

YRC Freight	Metric
LTM revenue	\$3.2 billion
LTM Adj. EBITDA	\$167 million
# of Customers	~128,000
# of Terminals	259
Average Length of Haul	1,300 miles
Average Weight	1,000 lbs
Average Transit	3-4 days

## YRC Regional

Three distinct carriers serving separate regions

- Holland, Reddaway and New Penn
- Well established brands with long histories Roadway acquired in 2003 and integrated in 2009
   Focused on next-day and time-sensitive services

YRC Regional	Metric
LTM revenue	\$1.8 billion
LTM Adj. EBITDA	\$159 million
# of Customers	~266,000
# of Terminals	125
Average Length of Haul	400 miles
Average Weight	1,300 lbs
Average Transit	> 90% in 2 days or less

## **Diversified Customer Base**

- Long-standing and stable relationships with a large, diversified base of customers
  - Customers range from Fortune 1000 global corporations to small, privately-held businesses
  - Top 5 customers account for approximately 10% of total revenue
- Recognized by customers as leading operator
  - Recently received Walmart's "2014 National LTL Carrier of the Year" award for outstanding service
    - Received this award in 3 of the last 5 years

# **Largest LTL Operator in North America**

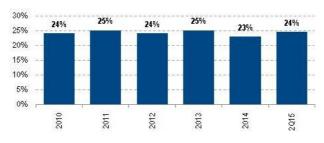

- Market share stability
- 24% market share by tonnage (public LTL carriers only)
- YRC Freight and YRC Regional's combined networks cover all 50 states, Puerto Rico, Canada and Mexico
  - Broad footprint with service to over 250,000 customers
- Scale is important for an LTL operator given the capital intensity/requirement to build the large "hub and spoke" network infrastructure and the significant operating leverage associated with the business model's fixed costs

# Market Share by Tonnage (Public LTL Carriers Only)

Market share by tonnage reflects Q2 2015 data

### **Historical Market Share**

Historical market share by tonnage based upon publicly traded LTL carriers only.

# Re-investment in the Business

- After several years of curtailing investment in the business, capital spending has resumed
- Fleet replenishment through operating leases<sup>\$200</sup>
   beginning in 2013
- Increased leasing activity due to greater financing options resulting from the Company's improve<sup>₹0</sup> financial condition
- Acquired4dimensionersince2014.
   Dimensioning technology is used to better cost, price and plan freight loading and flow
- FortheLTM2Q15theCapExEquivaler(CapEx plus the Capital Value of Leases) was 4.2% of 1.0% revenue. This brings the Company more in line with historical industry standards

## CapEx Equivalents-a % Revenue

# **Re-investment in the Business**

- YRCW's goal is to more aggressively replenish the fleet through a combined approach of purchasing and leasing new tractors and trailers
- Further roll-out of dimensioning technology

Tablets for dock supervisors to more efficiently manage dock operations

Implemented Kronos workforce management technology

Logistical planning technology to improve network efficiencies

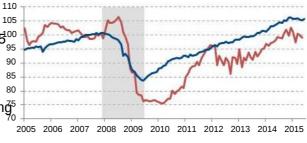

## LTL Demand Fundamentals Remain Favorab

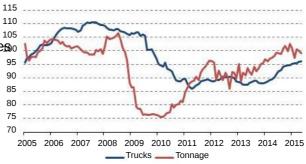

- Based on market research, LTL freight volumes are highly correlated with IPI
- Although IPI has been somewhat flat in 2015<sup>00</sup><sub>95</sub> partially due to severe weather in 1Q15, strengthening labor market and loosening scredit is expected to bolster consumer spending which augers well for manufacturing growth
- According to the American Trucking Association (ATA), demand as measured by LTL tonnage continues to outstrip LTL supply (size of driver fleets)
- The ATA forecasts shortages of 35,000 to 40,000 drivers in coming years due to retirees outstripping new drivers
